

NOTES OF THE TEXAS LEAGUE

(Continued From Page Ten.)

Indefinite suspension for Morris, manager of the Fort Worth Panthers, for striking umpire Flynn, and for Salms for striking umpire Biye, will stick. Bally for the president. Here's hoping that the indefinite suspension will be a long one. There is never any excuse for breaking up a game by trying to kill the umpire.

BIG FIGHT PICTURES SELL FOR \$150,000

Will Be Developed En Route to New York by New York Man.

San Francisco, Calif., June 15.—Fifty thousand bucks—\$50,000—is what one-third of the big fight motion picture rights will bring. Jack Johnson last night sold his third for that sum to William T. Rock, of New York City, representing a film concern. Tex Rickard and Jack Gleason have agreed to sell their share for the same amount if Jeffries will follow suit. Now, Jeff had agreed that sum to be very nifty and nice, but as usual his trainer, Sam Berger, has balked, and is sparring for time and more money.

The pictures will be rushed east on a special train following the fight and will be developed on a specially arranged car. They will be produced for the first time in New York City.

JOHNSON SAYS HE IS IN CONDITION

San Francisco, Calif., June 15.—After the rest of the day before, Johnson yesterday did some boxing in addition to his 12 miles of road work. He sparred four rounds with Kaufman before a large crowd of visitors. The negro showed little effort or speed.

"Why should I box hard?" he said. "I am in condition and practically down to weight. I weigh 212 pounds and as I will be boxing every day I don't want too much exercise just now."

"Johnson will not cut short his road work," said Flanagan Tuesday afternoon. "He will keep plugging away at it straight through and the only difference will be that he will gradually increase his speed. Road work is a good thing for Johnson, because it keeps his wind in excellent shape and his weight down."

AMUSEMENTS.

AT THE AIRDOME.

The musical comedy at the Airdome continues to win the applause of those who attend, and all the audiences appear to be pleased. Miss Lillian Shattuck is now singing the illustrated song with living pictures, and it is a very attractive feature of the performance. She is singing "My Beautiful Rose," with electrical effects that are pretty. Several other clever specialties are introduced. The new cast appears to be making friends with Air-

dome patrons. The chorus shows much improvement in voice and a number of new steps are introduced into this week's bill. "Foxy Mr. Bowser" will run the rest of the week.

A KING'S FUNERAL PICTURES.

A magnificent picture of King Edward's funeral will be shown at the Wigwam theater tonight. The film was run off in private this morning. It shows the royal casket several times, followed by the queen mother's coach, the royalty of all Europe, many of whom are easily recognized, and a

maze of most gorgeous uniforms. "I had great hopes of this film," said manager Winch, "but it exceeded my most extravagant expectations. It is all its makers claimed for it and more. Every one should see it."

GUAYULE RUBBER MAKERS MEET

Have Large Investments
Near Torreon—To Fix
Market Price.

Torreón, Mex., June 15.—Over \$65,000,000 gold is calculated to be invested in the guayule rubber business in Torreon and the near vicinity by the companies participating in the big convention of guayule rubber manufacturers in Torreon today.

The most important factories are the Continental-Mexican Rubber company, Cia. Guayalera de Torreon, the Hulera de la Laguna, La Internacional Mexicana, Cia. Guayulera Nacional, Compania Exploradora de Hule de Torreon, Othlon Katterfeldt and Erico Notholt, all of these cities, in the state of Coahuila, are the Compania Exploradora Coahuilense, of Parras; the Mexican Crude Rubber company, of Viesca; Compania Ganadera de la Merced, of Cuatro Ciénegas; and the old factory at Jimulco.

During the month of January, 1910, the production of rubber from the guayule shrub amounted to 1,500,000 pounds of crude rubber. Most of this product was shipped to the United States.

It is estimated that over 12,000 people are employed in the cutting, packing, freighting and treatment of the guayule shrub. The daily pay roll amounts to almost \$30,000, a large portion of which is spent in Torreon and Gomez Palacio.

The convention will consider the most convenient form in which the guayule rubber may command a just price in the markets of the world and will have a commission to fix the minimum price at which the rubber should be sold.
